

GROW

Together

Growth Together is about rethinking our environments and their effect on us — how do we personalize it? From its impact on our mental and physical health to the impact on the environment,

Growth Together is a three day educational and interactive seminar dedicated to providing space in which we examine our environments and how we can improve them and ourselves.

About

Program

Impact

Grow Together

Growth Together is about rethinking our environments and their effect on us — how do we personalize it? From its impact on our mental and physical health to the impact on the environment,

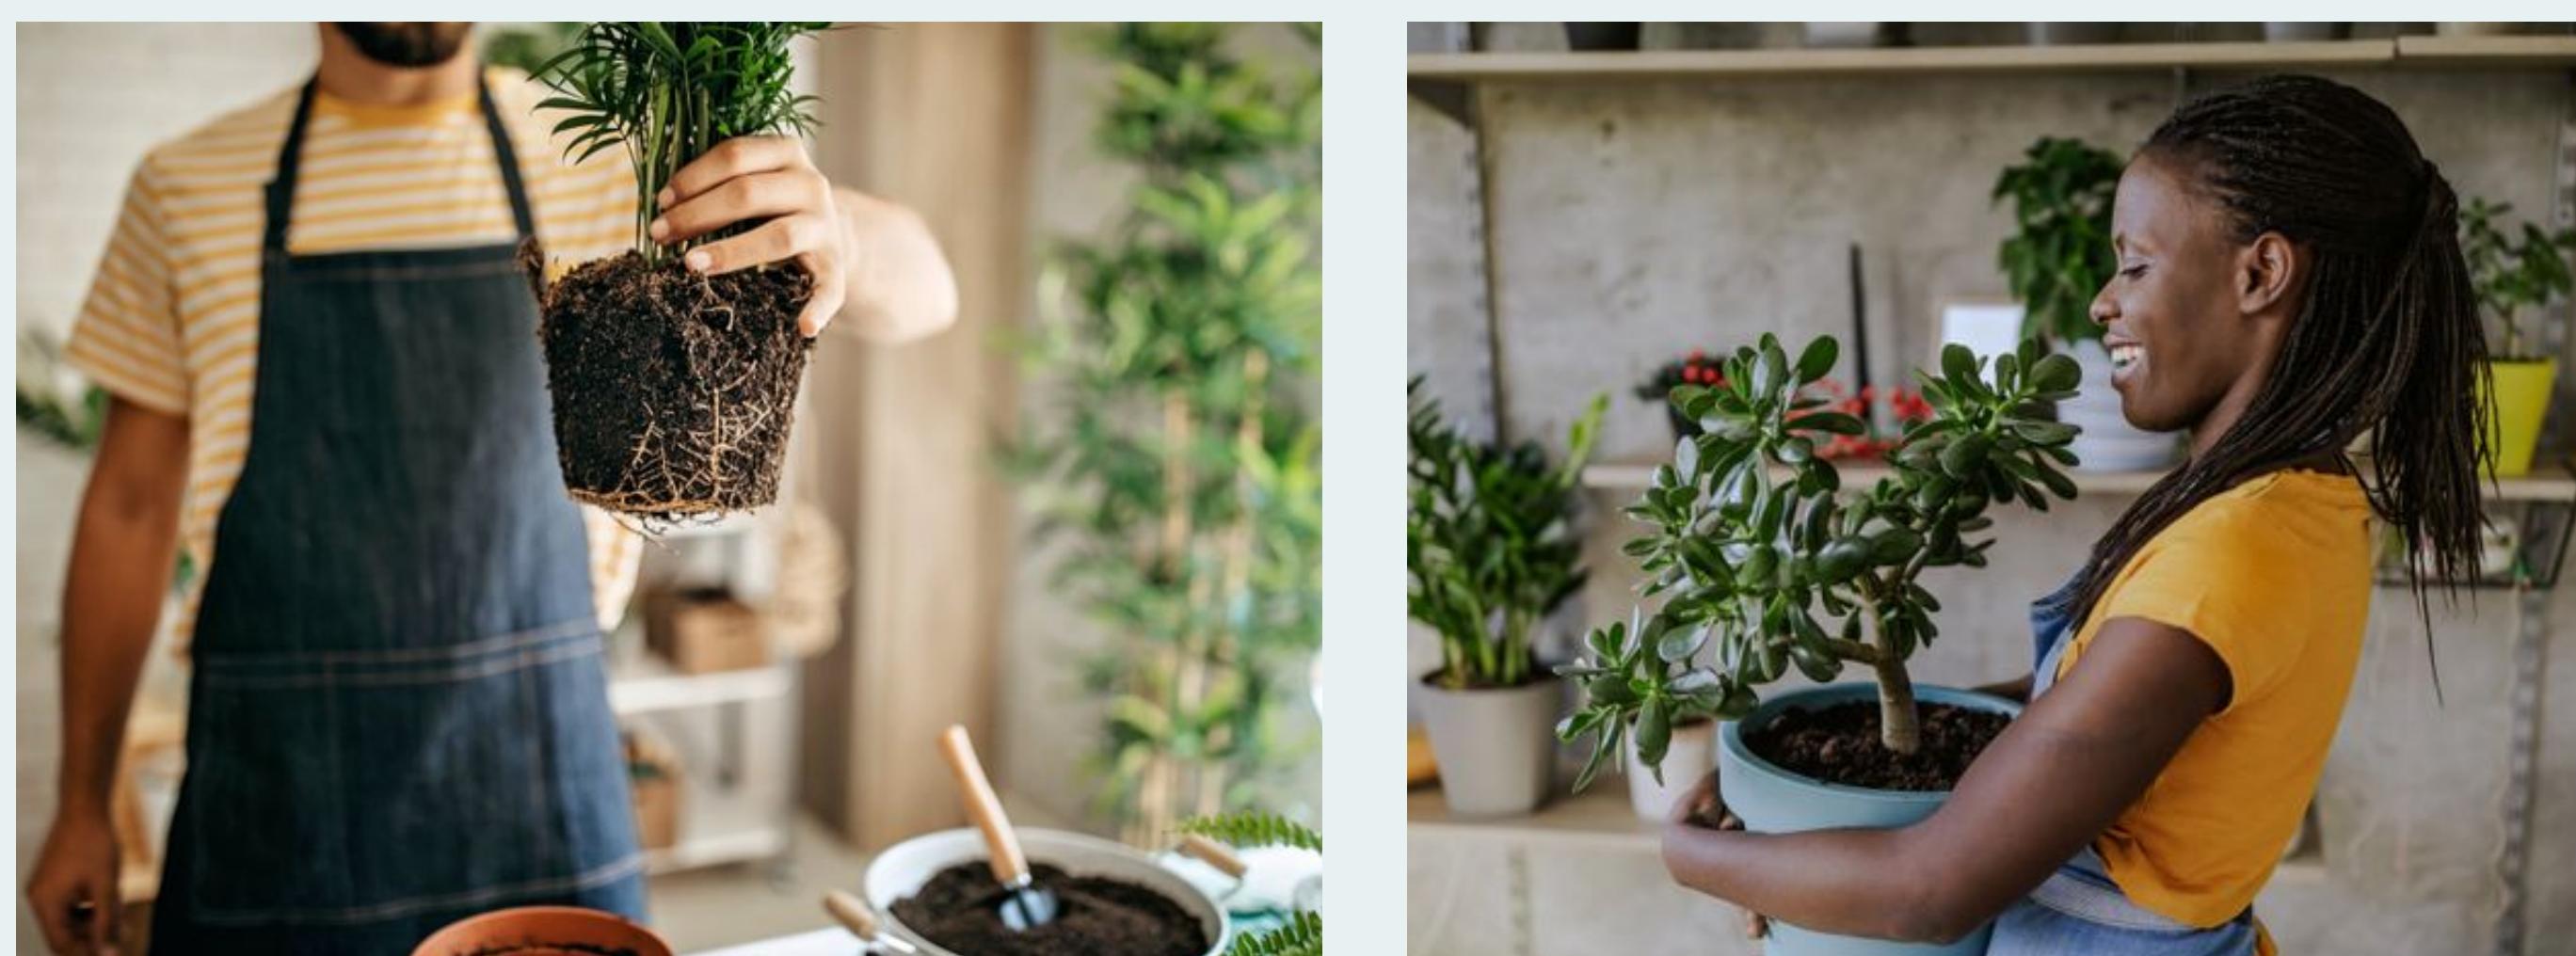

Growth Together is a three day educational and interactive seminar dedicated to providing space in which we examine our environments and how we can improve them and ourselves.

about

Growth Together is a three day multi-event program to help raise awareness of personal growth and mental health issues centered around our environments.

Proceeds from Growth Together will go to the NAMI or the National alliance of mental illness and its cause to provide education and awareness of the importance of mental health. The rise in mental health issues over the last decade has been enormous, but part of that has been the acceptance of talking about our issues.
